

# An At Home Scavenger Hunt

Here is a fun activity for kids to do at home ~ a musical scavenger hunt! You can assign it for homework, or have it be optional, but the goal is for them to sharpen their aural skills and to see just how creative they can be! You can even come up with a prize for the most artistic or craziest: a call from you, perhaps! I can't wait to see what my kids turn in!

## Find something in your house that:

1. makes a steady beat
2. makes a very high sound
3. makes a very low sound
4. you can shake to make sound
5. you can hit to make sound
6. you can scrape to make sound
7. doesn't make any sound at all no matter what you do with it
8. "sings" sol, mi
9. can make a long sound
10. makes a short sound

## BONUS:

- makes your favorite sound!
